Squirrels Class Curriculum Overview — Autumn 1		
Enquiry: How can we lead a healthier lifestyle?		
Being Authors and Readers As Readers, we will continue our phonics and reading with Read Write Inc. As Writers, we will be writing instructions, a narrative and a character description while concentrating on letter formation, sentence structure and simple punctuation.	Lead: Being Engineers We will be designing, making and evaluating our own healthy wraps with help from Cook Stars chef Samantha Starkie.	Being Mathematicians The year 1s will be sorting, counting and ordering numbers to 20, while the year 2s will be developing their place value knowledge of numbers to 100.
Being Musicians We will be developing our listening, singing and composing skills, using 'Learning to Listen' on Charanga.	Being Artists We will be looking at the Artist Giuseppe Arcimboldo and how he used fruit and vegetables in his artwork. We shall also be practicing our sketching skills thinking about lines, shapes and patterns.	Being Philosophers This term we will be looking at Judaism and the question 'Why do Jewish families talk about repentance at New Year?' We will also be looking at our 'Me and my Relationships' in PSHE. The storm break theme this term is also about relationships.
Being Athletes We will be developing our Tag Rugby skills on Thursdays and our Cricket skills on Friday.	Being Scientists We will be asking simple questions and performing simple tests to see how we can be healthier and look after our bodies.	Being Computer Scientists We will be learning about the information and technology around us through 'Tech Computing'.
